You don't need a driver's license to compete in NASCAR. Technically, a state's driver's license is not needed to compete in NASCAR. Even drivers who have had their actual driver licenses suspended for everything from reckless driving to DUIs were still able to race in NASCAR.

In 1968, Vermont legislators decided to enact a state-wide ban on the installation of billboards. The authorities implemented this change to preserve the state's natural beauty. The ban helped boost tourism. Vermont became the second state to ban billboards, Hawaii was first state in the 1920's. Maine followed in the 1980's and Alaska in 1998.

The president Lincoln, who was assassinated on April 14, 1865, had signed legislation to create the U.S. Secret Service hours before he headed to Ford's Theatre. However, the Secret Service wouldn't have saved Lincoln had it been created in time - the original purpose was to combat widespread currency counterfeiting. It wasn't until 1901 that its M.O. was to protect the president.

Dr. Horatio Nelson Jackson of Burlington, Vermont was the first to drive an automobile across the U.S. in 1903. Someone challenged Jackson that he couldn't make it to New York City by car in less than 90 days. He along with a 22-year-old bicycle racer and gasoline mechanic set off to achieve the feat in a used 20 horsepower Winton touring car. The duo completed the journey in less than 64 days. The cost of the journey was around \$8,000.

EPA Certified Renovator ~ EMP & RRP Certified

Lake Champlain, located primarily in Vermont with parts in New York and Quebec, isn't as big as the Great Lakes, but it does have its own monster according to legends. Champ is said to be friendly, 20 to 80 feet long, and have a head like either a snake or a dog. The most famous photo of him was taken back in 1977.

Local authorities in two Vermont towns shocked the nation in 2008 by passing resolutions aimed at the arrest of the then President George W. Bush and Dick Cheney. The resolution meant that individuals could effect a citizens' arrest if the two men ever visited Marlboro or Brattleboro. The town came to this decision because they felt that the two leaders violated the constitution.

It's always been
easier for me to
help others

than to
help myself

As a Veteran, when someone raises their hand for help, you're often one of the first ones to respond. But it's also okay to get help for yourself. Maybe you want or need assistance with employment, stress, finances, mental health or finding the right resources. No matter what it is, you earned it. And there's no better time than right now to ask for it. **Don't wait. Reach out.**

PROTECTING YOUR KIDS ONLINE 2.0

CONNECT

Set some ground rules.

Establish clear guidelines like what types of sites kids can visit, apps they can download, and when they can have access to electronics. Consider "blackout" periods that require disconnection.

Research before you buy.

It's important to learn about a device's capabilities before you buy. Will it allow unknown people to communicate with my child? Will this allow children to make unchecked purchases?

Go beyond safeguards.

Installing monitoring software doesn't guarantee your child will be safe online. Time, attention and active conversation are the best tools to protect them.

REPORT!

If your kids are dealing with cyberbullies or potential online enticement, report it to the website, cell phone provider, law enforcement or CyberTipline.org

LEARN

Know the platforms.

Online enticement happens across all platforms, so be aware of the sites, games and apps your children frequent. Ask them to show you how they use them.

Be proactive.

Teach your kids to spot common tricks used by online offenders. In NCMEC CyberTipline reports, the most common tactics used to entice a child online were:

- Engaging the child in sexual conversation/roleplay as a grooming method.
- Directly asking the child for sexually explicit images of themselves, or offering to mutually exchange images.
- Developing a rapport with the child through compliments and other supportive behaviors such as "liking" their online posts.
- Sending unprompted sexually explicit images of themselves.
- Pretending to be younger.
- Offering incentives for explicit content.

Spot the Red Flags.

A child who is experiencing online enticement may be:

- Spending increasing time online.
- Getting upset when he or she is not allowed on their device.
- Taking extra steps to conceal what they are doing online.
- Receiving gifts from people you don't know.

ENGAGE

Talk about it!

Your kids might not tell you everything, but ask anyway. Regular conversations about safety can go a long way in increasing trust and communication.

Get involved.

Challenge them to a duel. If you have kids who like to play online games, ask if you can play, too. When you respect their interests, they're more likely to respect your rules.

Don't pull the plug.

Taking away internet access because they may have made mistakes online doesn't solve the problem. Talk to them about protecting themselves and respecting others online.

THE FOLLOWING CHECKLIST CAN HELP YOU TAKE STEPS TO KEEP YOURSELF SAFER ONLINE.

○ CHECK YOUR COMMENTS AND IMAGES.

Have you posted anything inappropriate or illegal, like threats, nudity, alcohol, or drugs?

○ TALK TO YOUR FRIENDS ABOUT WHAT'S OK TO POST.

Agree that you won't post embarrassing or hurtful comments or images of each other. Be clear that you'll delete – or if needed, report – any posts that are inappropriate, illegal, threatening, or could get you in trouble.

○ REVIEW YOUR ACCOUNT SETTINGS.

Always ask yourself – what is on my profile and who can see it?

○ KNOW YOUR FRIENDS, CONTACTS, AND FOLLOWERS.

These are the people who can see, share, and comment on what you post so you want to be sure you can trust them. Block and report anyone who makes harassing, threatening, or inappropriate comments.

○ KEEP AN EYE ON 3RD PARTY AND CONNECTED APPS.

Some of these will allow you to log into one app using account information from another. Be careful, as this may allow the company access to your profile information.

○ DON'T FORGET MOBILE.

When you use mobile devices like smartphones and tablets to post something or check in, you could also be sharing your location. Check your settings to make sure you're only sharing what you want to.

○ REPORT.

You have the right to be safe online. If anyone cyberbullies you, make a report to the website or app. If anyone shares or asks you to share sexual messages or images, make a report to CyberTipline.org.
